Cover Letter: Working student (m/f/d) - LVS Data Analyst

ABB Ratingen 2026-10-21

Dear ABB team,

I am applying for the Working Student LVS Data Analyst position. Building dashboards, validating data and benchmarking KPIs to support decisions in an international team is the work I have done and want to keep growing in.

I am an M.Sc. Data Science student at TU Ilmenau. Before moving to Germany I worked as a Business Analyst at Tapal Tea and in SAP data & analytics consulting at TallyMarks Consulting, building dashboards, data models and SQL-based reporting for business teams.

- **Replacing manual checks,** I replaced a quality check where users opened an SAP report for each of thousands of materials and compiled results in Excel with a single SAP Analytics Cloud dashboard
- **SQL and data quality,** I used SQL analysis, data validation and reconciliation to keep reporting accurate across HR, finance, supply chain and procurement
- **Power BI for leadership,** I built a Power BI dashboard for the CEO comparing monthly sales against the fiscal-year plan

In your team I would develop dashboards and automated reports, run data validation and quality controls, and support KPI benchmarking and project analysis. I am comfortable working under time pressure and communicating across teams.

I am available immediately for up to 20 hours per week and am happy to relocate to the Düsseldorf area. I would be glad to discuss how I can contribute.

I work in English (IELTS 8.0) and am currently learning German (A1).
