Cover Letter: Working Student Digital & Analytics in Credit Risk (f/m/d)

E.ON Essen 2026-10-21

Dear E.ON team,

I am applying for the Working Student position in Digital & Analytics in Credit Risk. Preparing and visualizing data to support risk management decisions in a major energy company is a strong fit with my experience and my M.Sc. in Data Science.

I am an M.Sc. Data Science student at TU Ilmenau. Before moving to Germany I worked as a Business Analyst at Tapal Tea and in SAP data & analytics consulting at TallyMarks Consulting, building dashboards, data models and SQL-based reporting for business teams.

- **SQL and data quality,** I used SQL analysis, data validation and reconciliation to keep reporting accurate across HR, finance, supply chain and procurement
- **Replacing manual checks,** I replaced a quality check where users opened an SAP report for each of thousands of materials and compiled results in Excel with a single SAP Analytics Cloud dashboard
- **Clear documentation,** I documented data sources, calculations and results for every dashboard I built, so colleagues could support them too

In your team I would analyse, prepare and visualize data, support improvements to your central credit risk management system, and help with data management and documentation. I have not yet worked with your cloud database stack, but I learn new data platforms quickly.

I am available immediately for up to 20 hours per week and am happy to relocate to Essen. I would be glad to discuss how I can contribute.

I work in English (IELTS 8.0) and am currently learning German (A1).
