Cover Letter: Werkstudent (m/w/d) – Datenerfassung & Datenqualität

Garanti BBVA International Düsseldorf 2026-10-17

Dear Garanti BBVA International team,

I am applying for the Werkstudent position in data entry and data quality. Careful, accurate work with data is something I have done every day in my previous roles, and I would like to apply it in an international banking environment alongside my M.Sc. studies.

I am an M.Sc. Data Science student at TU Ilmenau. Before moving to Germany I worked as a Business Analyst at Tapal Tea and in SAP data & analytics at TallyMarks Consulting, where the accuracy of business data was central to my work.

- **Checking data for correctness,** I performed data validation and data reconciliation to keep company reporting accurate across HR, finance, supply chain and procurement
- **Following defined processes,** I handled daily support tickets and user queries for around 30 dashboards, resolving issues in a structured and reliable way
- **Careful documentation,** I documented data sources, calculations and results for every dashboard I built

In your team I would take care of entering, updating and correcting data exactly according to your guidelines, run quality and completeness checks conscientiously, and treat all information confidentially. I work confidently in Excel and enjoy structured, recurring tasks where accuracy matters.

I am available immediately for 15 to 20 hours per week and am happy to relocate to Düsseldorf to work on site. I would be glad to discuss how I can support your team.

My working language is English (IELTS 8.0); I am currently learning German (A1).
