M.Sc. Data Science (in progress), TU Ilmenau | B.S. Artificial Intelligence | Four SAP Certified Associate certifications

Cover Letter: Working Student IT Project Management in Business Solutions – Public Markets Back Office

Munich Re Munich 2026-10-31

Dear Munich Re hiring team,

I am applying for the Working Student position in IT Project Management in Business Solutions. Supporting business systems and the people who use them is what I did every day in my previous role, and I would like to bring that to financial systems.

I am an M.Sc. Data Science student at TU Ilmenau with four SAP Certified Associate certifications. I worked as a Business Analyst at Tapal Tea and in SAP data and analytics at TallyMarks Consulting.

- **System support,** I handled daily support tickets and user queries for around 30 SAP Analytics Cloud dashboards across HR, finance, supply chain and procurement
- **Project lifecycle,** in the SAP Young Professionals Program I trained on SAP Activate methodology and Fit-to-Standard workshops
- **Migration project,** I was part of a team migrating 42 dashboards from SAP BW to SAP Datasphere

I would help track project tasks, coordinate with users and IT, prepare documentation and keep the team's Office tools organised. I have not used SimCorp Dimension, and I would learn it and your asset management processes quickly.

I am willing to relocate to Munich and can work 16 or 20 hours per week for the full period you need, starting immediately. I would be glad to discuss the role.

I work in English (IELTS 8.0) and am currently learning German (A1).
