Cover Letter: Working Student Commercial Growth & Performance – Strategy, Transformation, Data Analytics & AI

CWS Hygiene International Dreieich 2026-11-11

Dear CWS Commercial Growth & Performance team,

I am applying for the Working Student position in Commercial Growth & Performance. Structuring business problems, analysing data and presenting clear recommendations is what I did as a Business Analyst, and I use ChatGPT and Claude daily to work faster.

I am an M.Sc. Data Science student at TU Ilmenau with a B.S. in Artificial Intelligence. I worked as a Business Analyst at Tapal Tea and in SAP data and analytics consulting at TallyMarks Consulting, where I also presented to a client.

- **Analysis to recommendation,** I translated business requirements into KPI reporting in SAP Analytics Cloud and documented sources and calculations for every dashboard I built
- **Consulting,** I prepared and presented an SAP Analytics Cloud presentation to a client, who subsequently purchased it
- **Working with AI,** I use ChatGPT and Claude daily and built DocuMind, an AI application with the Claude API, evaluated on a 22-question test set

I would analyse customer and revenue data, help build segments and pricing analyses in Excel and Python, and prepare clear slides for management. My business background is from analytics rather than a business degree, and my Power BI is basic, so I would learn the strategy side from your former consultants.

I am willing to relocate to the Frankfurt area and can work up to 20 hours per week, starting immediately. I would be glad to discuss the role.

I work in English (IELTS 8.0) and am currently learning German (A1).
