M.Sc. Data Science (in progress), TU Ilmenau | B.S. Artificial Intelligence | Four SAP Certified Associate certifications

Cover Letter: Working Student (m/f/d) Business Analysis

Olympus Hamburg 2026-11-11

Dear Olympus hiring team,

I am applying for the Working Student position in Business Analysis. Maintaining and analysing data, building dashboards from several sources and preparing management reports is what I did in my previous roles.

I am an M.Sc. Data Science student at TU Ilmenau with four SAP Certified Associate certifications. I worked as a Business Analyst at Tapal Tea and in SAP data and analytics at TallyMarks Consulting.

- **Dashboards,** I built quality inspection and employee expense reimbursement dashboards in SAP Analytics Cloud and supported around 30 dashboards across HR, finance, supply chain and procurement
- **Financial data,** I used SQL analysis, validation and reconciliation to keep financial and operational reporting accurate
- **SQL and Python,** I write SQL queries and use Python for data work, most recently in DocuMind, an evaluated AI application

I would maintain databases, analyse spend and transfer-of-value data, build dashboards and support the disclosure process carefully. My Power BI is basic and I have not used the Power Platform; I build dashboards quickly in SAP Analytics Cloud and would get up to speed fast.

I am willing to relocate to Hamburg and can work up to 20 hours per week, including the office days you need, starting immediately. I would be glad to discuss the role.

I work in English (IELTS 8.0) and am currently learning German (A1).
