# MUHAMMAD RAYYAN AHMED

SAP Certified Associate

DATA SCIENCE STUDENT | DEEP LEARNING & PYTHON

+49 179 6991596 | muhammad-rayyan.ahmed@tu-ilmenau.de | linkedin.com/in/rayyan--ahmed | kaggle.com/rayyan123z | Ilmenau, Germany

**Available immediately | up to 20 h/week**

## PROFESSIONAL SUMMARY

M.Sc. Data Science student at TU Ilmenau with a B.S. in Artificial Intelligence and hands-on **deep learning projects in PyTorch** (computer vision, video pipelines with FFmpeg, OCR) and NLP. Experienced in implementing, evaluating and tuning models in Python.

## TECHNICAL SKILLS

- **ML & Programming:** Python | PyTorch | Pandas | NumPy | scikit-learn | OpenCV | EasyOCR | FFmpeg | spaCy | BERT
- **Data:** SQL | data cleaning & validation | exploratory data analysis | data pipelines | SAP Datasphere | SAP Analytics Cloud
- **Office:** Excel (pivot tables, formulas) | PowerPoint | Matplotlib
- **Languages:** English C1 (IELTS 8.0) | German A1 (currently learning)

## PROFESSIONAL EXPERIENCE

▷ **Business Analyst** **Apr 2026 - Sep 2026**

Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Performed SQL analysis, ABAP CDS view validation and data reconciliation to support reporting accuracy
- Built a quality inspection dashboard in **SAP Analytics Cloud** on a data model built from **ABAP CDS view** data sources and joins, replacing a manual process of opening an SAP report per material for thousands of materials and compiling defect status in Excel
- Translated business requirements into KPI-based reporting and documented data sources, calculations and results for every dashboard I built

▷ **SAP Young Professionals Program (YPP)** **Aug 2025 - Sep 2025**

SAP Authorized Training Program - (Karachi, Pakistan)

- Selected as **one of 10 participants from Pakistan** for the SAP Young Professionals Program
- Completed intensive training on **SAP S/4HANA Cloud Public Edition** implementation, covering end-to-end business processes and system configuration

▷ **Management Trainee Officer, Data Planning & Analytics** **Jun 2025 - Apr 2026**

TallyMarks Consulting (TMC) - (Karachi, Pakistan)

- Part of a team migrating a textile manufacturer's **42 SAC dashboards from SAP BW to SAP Datasphere**
- Independently built the spinning dashboard end to end: investigated sources and dependencies, rebuilt the datasets in SAP Datasphere and rebuilt the SAC dashboard (OEE, machine efficiency and utilization, downtime, yield)
- Designed and implemented SAP Datasphere data pipelines connecting the required sources
- Prepared and presented a client presentation on SAP Analytics Cloud; the client subsequently purchased it

▷ **SAP Data Analyst Intern** **Jun 2024 - Aug 2024**

Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Analyzed company purchase data from SAP reports to uncover key trends and insights, improving procurement decision-making
- Wrote complex SQL queries to integrate company-wide data with SAC, enabling seamless data updates and minimizing reliance on manual extraction

## PROJECTS

▷ **Automated Cricket Highlights Generation** *B.S. Thesis, team project*

Created training data, evaluated and tuned an EfficientNet-B0 model, tested EasyOCR for scoreboard extraction, and built the **video/audio pipeline** (FFmpeg) that aligns detected events with timestamps.

*PyTorch, OpenCV, EasyOCR, FFmpeg*

▷ **Retinal OCT Scan Classification**

4-class medical image classifier on a pretrained EfficientNet-B0; **94.11% accuracy** on a 968-image test set, incl. denoising, resizing, rotation, cropping and flipping.

*PyTorch, EfficientNet-B0, OpenCV*

▷ **Knowledge Graph Construction & Clustering from Reddit Text** *team project*

Extracted subject-relation-object triples; compared graph-based and language-model embeddings with K-Means and HDBSCAN.

*Python, spaCy, NetworkX, BERT, GPT-2*

## EDUCATION

**M.Sc. Data Science** - *Technische Universität Ilmenau*, **Ilmenau, Germany** Oct 2026 - present

Courses: Bayesian Data Assimilation, Sequential Decision Making, Theoretical Foundations of Data Management

**B.S. Artificial Intelligence** - *FAST-NUCES*, **Karachi, Pakistan** 2021 - 2025

CGPA 3.49/4.00 (German grade equivalent: 1.7, converted)

## CERTIFICATIONS

- SAP Certified Associate: SAP Analytics Cloud (Data Analyst) (2025)
- SAP Certified Associate: SAP Business Data Cloud (2025)
- SAP Certified Associate: SAP S/4HANA Cloud Public Edition, Implementation Consultant (2025)
- SAP Certified Associate: SAP Integration Developer (2025)
