Cover Letter: Working Student (m/f/d) Digital Adoption

C&A Düsseldorf 2026-11-07

Dear C&A hiring team,

I am applying for the Working Student position in Digital Adoption. Testing AI tools against real scenarios, documenting honestly where they fall short and explaining the results to non-technical colleagues is a combination of what I have done in my project and in my previous job.

I am an M.Sc. Data Science student at TU Ilmenau with a B.S. in Artificial Intelligence. I use ChatGPT and Claude daily, and I worked as a Business Analyst at Tapal Tea supporting dashboard users.

- **Structured AI testing,** I built a 22-question test set for my RAG application DocuMind, including 4 questions with no answer in the documents, and measured quality, latency and cost
- **Documenting failures,** I wrote up the cases where DocuMind failed and why, not only where it worked
- **Enabling users,** I handled daily user queries for around 30 SAP Analytics Cloud dashboards and documented sources and calculations for every dashboard I built

I would test approved AI tools with structured scenarios, compare output quality and limits, and turn findings into demos, how-to guides and FAQs in Microsoft 365. My German is still basic (A1), so I would write materials in English and support German content with colleagues while I keep learning.

I am willing to relocate to Düsseldorf and can work up to 20 hours per week, starting immediately. I would be glad to discuss the role.

I work in English (IELTS 8.0) and am currently learning German (A1).
