(Willing to relocate)

PROFESSIONAL SUMMARY

M.Sc. Data Science student at TU Ilmenau with **consulting experience** (SAP data & analytics at TallyMarks Consulting) and business analyst experience at Tapal Tea. Turns data into decisions with **SQL and Python**, and explains analytics clearly to business stakeholders.

TECHNICAL SKILLS

- **SAP & Analytics:** SAP Analytics Cloud | SAP Datasphere | ABAP CDS views | SAP Business Data Cloud | data modelling | ETL / data pipelines | SQL
- **Programming & Analysis:** SQL | Python | Pandas | NumPy | scikit-learn | Excel (pivot tables, formulas)
- **Reporting & Tools:** KPI reporting | Power BI (basic) | Excel (pivot tables, formulas) | PowerPoint | Matplotlib
- **Languages:** English C1 (IELTS 8.0) | German A1 (currently learning)

PROFESSIONAL EXPERIENCE

▷ **Business Analyst** — **Apr 2026 - Sep 2026**
Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Translated business requirements into KPI-based reporting and documented data sources, calculations and results for every dashboard I built
- Built a quality inspection dashboard in **SAP Analytics Cloud** on a data model built from **ABAP CDS view** data sources and joins, replacing a manual process of opening an SAP report per material for thousands of materials and compiling defect status in Excel
- Performed SQL analysis, ABAP CDS view validation and data reconciliation to support reporting accuracy
- Handled daily support tickets and user queries for around 30 SAC dashboards across HR, finance, supply chain and procurement, including dashboards built by others
- Built an employee expense reimbursement dashboard in SAP Analytics Cloud

▷ **SAP Young Professionals Program (YPP)** — **Aug 2025 - Sep 2025**
SAP Authorized Training Program - (Karachi, Pakistan)

- Selected as **one of 10 participants from Pakistan** for the SAP Young Professionals Program
- Completed intensive training on **SAP S/4HANA Cloud Public Edition** implementation, covering end-to-end business processes and system configuration
- Gained hands-on exposure to SAP Activate methodology, Fit-to-Standard workshops and cloud-based best practices
- Studied SAP Cloud Integration (CPI) concepts including message mappings, iFlows and integration scenarios

▷ **Management Trainee Officer, Data Planning & Analytics** — **Jun 2025 - Apr 2026**
TallyMarks Consulting (TMC) - (Karachi, Pakistan)

- Part of a team migrating a textile manufacturer's **42 SAC dashboards from SAP BW to SAP Datasphere**
- Independently built the spinning dashboard end to end: investigated sources and dependencies, rebuilt the datasets in SAP Datasphere and rebuilt the SAC dashboard (OEE, machine efficiency and utilization, downtime, yield)
- Designed and implemented SAP Datasphere data pipelines connecting the required sources
- Prepared and presented a client presentation on SAP Analytics Cloud; the client subsequently purchased it

▷ **SAP Data Analyst Intern** — **Jun 2024 - Aug 2024**
Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Analyzed company purchase data from SAP reports to uncover key trends and insights, improving procurement decision-making
- Developed interactive dashboards in **SAP Analytics Cloud** and Power BI, enabling real-time visualization of purchasing data and faster report generation
- Collected and refined user stories from employees to design customized dashboards that streamlined operational workflows and reduced manual data processing
- Wrote complex SQL queries to integrate company-wide data with SAC, enabling seamless data updates and minimizing reliance on manual extraction

EDUCATION

M.Sc. Data Science - *Technische Universität Ilmenau*, **Ilmenau, Germany** — Oct 2026 - present
Courses: Bayesian Data Assimilation, Sequential Decision Making, Theoretical Foundations of Data Management

B.S. Artificial Intelligence - *FAST-NUCES*, **Karachi, Pakistan** — 2021 - 2025
CGPA 3.49/4.00 (German grade equivalent: 1.7, converted)
