MUHAMMAD RAYYAN AHMED

SAP Certified Associate

DATA SCIENCE STUDENT | ANALYTICS, PYTHON & MACHINE LEARNING

+49 179 6991596 | muhammad-rayyan.ahmed@tu-ilmenau.de | linkedin.com/in/rayyan--ahmed | kaggle.com/rayyan123z | Ilmenau, Germany
(Willing to relocate)

PROFESSIONAL SUMMARY

M.Sc. Data Science student at TU Ilmenau with a B.S. in Artificial Intelligence, hands-on **PyTorch projects in computer vision and NLP**, and professional experience building analytics dashboards and data models on SAP platforms. Experienced in **SQL, data pipelines and interactive dashboards** for business stakeholders.

TECHNICAL SKILLS

- **Programming & ML:** Python | Pandas | NumPy | scikit-learn | PyTorch | OpenCV | SQL
- **Data & Analytics:** data pipelines | data modelling | ETL | SAP Datasphere | SAP Analytics Cloud dashboards | ABAP CDS views
- **Reporting & Tools:** KPI reporting | Power BI (basic) | Excel (pivot tables, formulas) | PowerPoint | Matplotlib
- **Languages:** English C1 (IELTS 8.0) | German A1 (currently learning)

PROFESSIONAL EXPERIENCE

▷ **Business Analyst** **Apr 2026 - Sep 2026**
Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Built a quality inspection dashboard in **SAP Analytics Cloud** on a data model built from **ABAP CDS view** data sources and joins, replacing a manual process of opening an SAP report per material for thousands of materials and compiling defect status in Excel
- Performed SQL analysis, ABAP CDS view validation and data reconciliation to support reporting accuracy
- Translated business requirements into KPI-based reporting and documented data sources, calculations and results for every dashboard I built
- Handled daily support tickets and user queries for around 30 SAC dashboards across HR, finance, supply chain and procurement, including dashboards built by others

▷ **SAP Young Professionals Program (YPP)** **Aug 2025 - Sep 2025**
SAP Authorized Training Program - (Karachi, Pakistan)

- Selected as **one of 10 participants from Pakistan** for the SAP Young Professionals Program
- Completed intensive training on **SAP S/4HANA Cloud Public Edition** implementation, covering end-to-end business processes and system configuration

▷ **Management Trainee Officer, Data Planning & Analytics** **Jun 2025 - Apr 2026**
TallyMarks Consulting (TMC) - (Karachi, Pakistan)

- Part of a team migrating a textile manufacturer's **42 SAC dashboards from SAP BW to SAP Datasphere**
- Independently built the spinning dashboard end to end: investigated sources and dependencies, rebuilt the datasets in SAP Datasphere and rebuilt the SAC dashboard (OEE, machine efficiency and utilization, downtime, yield)
- Designed and implemented SAP Datasphere data pipelines connecting the required sources
- Prepared and presented a client presentation on SAP Analytics Cloud; the client subsequently purchased it

▷ **SAP Data Analyst Intern** **Jun 2024 - Aug 2024**
Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Developed interactive dashboards in **SAP Analytics Cloud** and Power BI, enabling real-time visualization of purchasing data and faster report generation
- Wrote complex SQL queries to integrate company-wide data with SAC, enabling seamless data updates and minimizing reliance on manual extraction

PROJECTS

▷ **Retinal OCT Scan Classification**
4-class medical image classifier on a pretrained EfficientNet-B0; **94.11% accuracy** on a 968-image test set. Preprocessing and augmentation: denoising, resizing, rotation, cropping, flipping.
PyTorch, EfficientNet-B0, OpenCV

▷ **Automated Cricket Highlights Generation** *B.S. Thesis, team project*
Created training data, evaluated and tuned the EfficientNet-B0 model, tested EasyOCR configurations for scoreboard extraction, and built the video extraction and highlight assembly pipeline.
PyTorch, OpenCV, EasyOCR, FFmpeg

EDUCATION

M.Sc. Data Science - *Technische Universität Ilmenau*, **Ilmenau, Germany** Oct 2026 - present
Courses: Bayesian Data Assimilation, Sequential Decision Making, Theoretical Foundations of Data Management

B.S. Artificial Intelligence - *FAST-NUCES*, **Karachi, Pakistan** 2021 - 2025
CGPA 3.49/4.00 (German grade equivalent: 1.7, converted)

CERTIFICATIONS

- SAP Certified Associate: SAP Analytics Cloud (Data Analyst) (2025)
- SAP Certified Associate: SAP Business Data Cloud (2025)
- SAP Certified Associate: SAP S/4HANA Cloud Public Edition, Implementation Consultant (2025)
- SAP Certified Associate: SAP Integration Developer (2025)
