PROFESSIONAL SUMMARY

M.Sc. Data Science student at TU Ilmenau with a **B.S. in Artificial Intelligence** and hands-on experience building **business dashboards** (SAP Analytics Cloud, Power BI) on messy operational data. Strong at spotting manual, repetitive processes and replacing them with data-driven solutions, and quick to learn new data platforms.

TECHNICAL SKILLS

- **Analytics & BI:** SAP Analytics Cloud | Power BI (basic) | SQL | data modelling | data validation & reconciliation | SAP Datasphere | KPI reporting
- **AI & Programming:** Python | Pandas | NumPy | scikit-learn | PyTorch | ChatGPT & Claude (daily use) | B.S. Artificial Intelligence
- **Tools:** Excel (pivot tables, formulas) | PowerPoint | ABAP CDS views
- **Languages:** English C1 (IELTS 8.0) | German A1 (currently learning)

PROFESSIONAL EXPERIENCE

▷ **Business Analyst** — **Apr 2026 - Sep 2026**
Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Replaced a **manual, repetitive quality check** (opening an SAP report per material for thousands of materials and compiling defect status in Excel) with a single SAP Analytics Cloud dashboard on an ABAP CDS view data model
- Built a **Power BI dashboard for the CEO** comparing current-month sales with the fiscal-year sales plan, used to track performance and adjust strategy
- Handled daily support tickets and user queries for around 30 SAC dashboards across HR, finance, supply chain and procurement
- Performed SQL analysis, data validation and reconciliation to support reporting accuracy
- Built an employee expense reimbursement dashboard in SAP Analytics Cloud and documented every dashboard I built

▷ **SAP Young Professionals Program (YPP)** — **Aug 2025 - Sep 2025**
SAP Authorized Training Program - (Karachi, Pakistan)

- Selected as **one of 10 participants from Pakistan** for the SAP Young Professionals Program
- Completed intensive training on **SAP S/4HANA Cloud Public Edition** implementation, covering end-to-end business processes and system configuration

▷ **Management Trainee Officer, Data Planning & Analytics** — **Jun 2025 - Apr 2026**
TallyMarks Consulting (TMC) - (Karachi, Pakistan)

- Part of a team migrating a textile manufacturer's **42 SAC dashboards from SAP BW to SAP Datasphere**
- Independently built the spinning dashboard end to end: investigated sources and dependencies, rebuilt the datasets in SAP Datasphere and rebuilt the SAC dashboard (OEE, machine efficiency and utilization, downtime, yield)
- Designed and implemented SAP Datasphere data pipelines connecting the required sources
- Prepared and presented a client presentation on SAP Analytics Cloud; the client subsequently purchased it

▷ **SAP Data Analyst Intern** — **Jun 2024 - Aug 2024**
Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Developed interactive dashboards in **SAP Analytics Cloud** and Power BI, enabling real-time visualization of purchasing data and faster report generation
- Collected and refined user stories from employees to design customized dashboards that streamlined operational workflows and reduced manual data processing
- Wrote complex SQL queries to integrate company-wide data with SAC, enabling seamless data updates and minimizing reliance on manual extraction

PROJECTS

▷ **Retinal OCT Scan Classification**
4-class image classifier on a pretrained EfficientNet-B0; **94.11% accuracy** on a 968-image test set.
PyTorch, EfficientNet-B0, OpenCV

EDUCATION

M.Sc. Data Science - *Technische Universität Ilmenau*, **Ilmenau, Germany** — Oct 2026 - present
Courses: Bayesian Data Assimilation, Sequential Decision Making, Theoretical Foundations of Data Management

B.S. Artificial Intelligence - *FAST-NUCES*, **Karachi, Pakistan** — 2021 - 2025
