(Willing to relocate)

PROFESSIONAL SUMMARY

M.Sc. Data Science student at TU Ilmenau with professional experience in **SAP data modelling, SAP Datasphere, SAP Analytics Cloud and ABAP CDS views**, and a background in Python and machine learning. Four SAP Certified Associate certifications.

TECHNICAL SKILLS

- **SAP & Analytics:** SAP Analytics Cloud | SAP Datasphere | ABAP CDS views | SAP Business Data Cloud | data modelling | ETL / data pipelines | SQL
- **Programming & ML:** Python | Pandas | NumPy | scikit-learn | PyTorch | OpenCV
- **Reporting & Tools:** KPI reporting | Power BI (basic) | Excel (pivot tables, formulas) | PowerPoint | Matplotlib
- **Languages:** English C1 (IELTS 8.0) | German A1 (currently learning)

PROFESSIONAL EXPERIENCE

▷ **Business Analyst** **Apr 2026 - Sep 2026**

Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Built a quality inspection dashboard in **SAP Analytics Cloud** on a data model built from **ABAP CDS view** data sources and joins, replacing a manual process of opening an SAP report per material for thousands of materials and compiling defect status in Excel
- Built a tea purchasing dashboard in SAP Analytics Cloud
- Handled daily support tickets and user queries for around 30 SAC dashboards across HR, finance, supply chain and procurement, including dashboards built by others
- Performed SQL analysis, ABAP CDS view validation and data reconciliation to support reporting accuracy
- Translated business requirements into KPI-based reporting and documented data sources, calculations and results for every dashboard I built

▷ **Management Trainee Officer, Data Planning & Analytics** **Jun 2025 - Apr 2026**

TallyMarks Consulting (TMC) - (Karachi, Pakistan)

- Part of a team migrating a textile manufacturer's **42 SAC dashboards from SAP BW to SAP Datasphere**
- Independently built the spinning dashboard end to end: investigated sources and dependencies, rebuilt the datasets in SAP Datasphere and rebuilt the SAC dashboard (OEE, machine efficiency and utilization, downtime, yield)
- Designed and implemented SAP Datasphere data pipelines connecting the required sources
- Prepared and presented a client presentation on SAP Analytics Cloud; the client subsequently purchased it

PROJECTS

▷ **Retinal OCT Scan Classification**
4-class classifier on a pretrained EfficientNet-B0; 94.11% accuracy on a 968-image test set.
PyTorch, EfficientNet-B0, OpenCV

▷ **Automated Cricket Highlights Generation** *B.S. Thesis*
Team project. Created training data, tuned the EfficientNet-B0 model, tested EasyOCR for scoreboard extraction and built the highlight assembly pipeline.
PyTorch, OpenCV, EasyOCR, FFmpeg

EDUCATION

M.Sc. Data Science - *Technische Universität Ilmenau*, **Ilmenau, Germany** Oct 2026 - present
Courses: Bayesian Data Assimilation, Sequential Decision Making, Theoretical Foundations of Data Management

B.S. Artificial Intelligence - *FAST-NUCES*, **Karachi, Pakistan** 2021 - 2025
CGPA 3.49/4.00 (German grade equivalent: 1.7, converted)

CERTIFICATIONS

- SAP Certified Associate: SAP Analytics Cloud (Data Analyst) (2025)
- SAP Certified Associate: SAP Business Data Cloud (2025)
- SAP Certified Associate: SAP S/4HANA Cloud Public Edition, Implementation Consultant (2025)
- SAP Certified Associate: SAP Integration Developer (2025)
