MUHAMMAD RAYYAN AHMED

SAP Certified Associate

DATA SCIENCE STUDENT | DATA ENGINEERING, SQL & PYTHON

+49 179 6991596 | muhammad-rayyan.ahmed@tu-ilmenau.de | linkedin.com/in/rayyan--ahmed | kaggle.com/rayyan123z | Ilmenau, Germany
(Willing to relocate)

PROFESSIONAL SUMMARY

M.Sc. Data Science student at TU Ilmenau with professional experience **designing data pipelines and data models** (SAP Datasphere, ABAP CDS views), **SQL-based data validation and reconciliation**, and Python from a B.S. in Artificial Intelligence. Enjoys debugging data issues and documenting how systems fit together.

TECHNICAL SKILLS

- **Data Engineering:** SQL | data pipelines | data modelling | ETL / data transformation | data validation & reconciliation | SAP Datasphere | ABAP CDS views
- **Programming:** Python | Pandas | NumPy | scikit-learn | PyTorch
- **Analytics:** SAP Analytics Cloud | Power BI (basic) | Excel (pivot tables, formulas)
- **Languages:** English C1 (IELTS 8.0) | German A1 (currently learning)

PROFESSIONAL EXPERIENCE

▷ **Business Analyst** **Apr 2026 - Sep 2026**
Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)
- Performed SQL analysis, ABAP CDS view validation and data reconciliation to support reporting accuracy
- Built a quality inspection dashboard in **SAP Analytics Cloud** on a data model built from **ABAP CDS view** data sources and joins, replacing a manual process of opening an SAP report per material for thousands of materials and compiling defect status in Excel
- Handled daily support tickets and user queries for around 30 SAC dashboards across HR, finance, supply chain and procurement, including dashboards built by others
- Translated business requirements into KPI-based reporting and documented data sources, calculations and results for every dashboard I built

▷ **SAP Young Professionals Program (YPP)** **Aug 2025 - Sep 2025**
SAP Authorized Training Program - (Karachi, Pakistan)
- Selected as **one of 10 participants from Pakistan** for the SAP Young Professionals Program
- Studied SAP Cloud Integration (CPI) concepts including message mappings, iFlows and integration scenarios

▷ **Management Trainee Officer, Data Planning & Analytics** **Jun 2025 - Apr 2026**
TallyMarks Consulting (TMC) - (Karachi, Pakistan)
- Designed and implemented SAP Datasphere data pipelines connecting the required sources
- Independently built the spinning dashboard end to end: investigated sources and dependencies, rebuilt the datasets in SAP Datasphere and rebuilt the SAC dashboard (OEE, machine efficiency and utilization, downtime, yield)
- Part of a team migrating a textile manufacturer's **42 SAC dashboards from SAP BW to SAP Datasphere**

▷ **SAP Data Analyst Intern** **Jun 2024 - Aug 2024**
Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)
- Wrote complex SQL queries to integrate company-wide data with SAC, enabling seamless data updates and minimizing reliance on manual extraction
- Developed interactive dashboards in **SAP Analytics Cloud** and Power BI, enabling real-time visualization of purchasing data and faster report generation

PROJECTS

▷ **Automated Cricket Highlights Generation** *B.S. Thesis, team project*
Built the **video extraction and highlight assembly pipeline** that aligns detected events with timestamps; created training data and tuned an EfficientNet-B0 model.
Python, PyTorch, OpenCV, EasyOCR, FFmpeg

EDUCATION

M.Sc. Data Science - *Technische Universität Ilmenau*, **Ilmenau, Germany** Oct 2026 - present
Courses: Bayesian Data Assimilation, Sequential Decision Making, Theoretical Foundations of Data Management

B.S. Artificial Intelligence - *FAST-NUCES*, **Karachi, Pakistan** 2021 - 2025
CGPA 3.49/4.00 (German grade equivalent: 1.7, converted)

CERTIFICATIONS

- SAP Certified Associate: SAP Analytics Cloud (Data Analyst) (2025)
- SAP Certified Associate: SAP Business Data Cloud (2025)
- SAP Certified Associate: SAP S/4HANA Cloud Public Edition, Implementation Consultant (2025)
- SAP Certified Associate: SAP Integration Developer (2025)
