Available immediately | up to 20 h/week

PROFESSIONAL SUMMARY

M.Sc. Data Science student at TU Ilmenau with a B.S. in Artificial Intelligence. Builds **evaluated, tested Python pipelines**: DocuMind, a RAG application with a full evaluation harness, and PyTorch computer vision projects. Professional experience in **data validation and data modelling**.

TECHNICAL SKILLS

- **Python & data:** Python | NumPy | Pandas | Matplotlib | scikit-learn | PyTorch | SQL | exploratory data analysis
- **Evaluation & software:** evaluation metrics | pytest | Git/GitHub Actions | Docker | documentation
- **Data platforms:** data validation & reconciliation | data modelling | SAP Datasphere | SAP Analytics Cloud
- **Languages:** English C1 (IELTS 8.0) | German A1 (currently learning)

PROFESSIONAL EXPERIENCE

▷ **Business Analyst** **Apr 2026 - Sep 2026**

Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Performed SQL analysis, ABAP CDS view validation and data reconciliation to support reporting accuracy
- Built a quality inspection dashboard in **SAP Analytics Cloud** on a data model built from **ABAP CDS view** data sources and joins, replacing a manual process of opening an SAP report per material for thousands of materials and compiling defect status in Excel
- Translated business requirements into KPI-based reporting and documented data sources, calculations and results for every dashboard I built
- Handled daily support tickets and user queries for around 30 SAC dashboards across HR, finance, supply chain and procurement, including dashboards built by others

▷ **SAP Young Professionals Program (YPP)** **Aug 2025 - Sep 2025**

SAP Authorized Training Program - (Karachi, Pakistan)

- Selected as **one of 10 participants from Pakistan** for the SAP Young Professionals Program
- Completed intensive training on **SAP S/4HANA Cloud Public Edition** implementation, covering end-to-end business processes and system configuration

▷ **Management Trainee Officer, Data Planning & Analytics** **Jun 2025 - Apr 2026**

TallyMarks Consulting (TMC) - (Karachi, Pakistan)

- Part of a team migrating a textile manufacturer's **42 SAC dashboards from SAP BW to SAP Datasphere**
- Independently built the spinning dashboard end to end: investigated sources and dependencies, rebuilt the datasets in SAP Datasphere and rebuilt the SAC dashboard (OEE, machine efficiency and utilization, downtime, yield)
- Designed and implemented SAP Datasphere data pipelines connecting the required sources
- Prepared and presented a client presentation on SAP Analytics Cloud; the client subsequently purchased it

▷ **SAP Data Analyst Intern** **Jun 2024 - Aug 2024**

Tapal Tea (Pvt.) Ltd. - (Karachi, Pakistan)

- Developed interactive dashboards in **SAP Analytics Cloud** and Power BI, enabling real-time visualization of purchasing data and faster report generation
- Wrote complex SQL queries to integrate company-wide data with SAC, enabling seamless data updates and minimizing reliance on manual extraction

PROJECTS

▷ **DocuMind: RAG Q&A over technical PDF manuals** *Personal project | github.com/Rayyan3079/documind-rag*

Built a RAG system that answers questions about PDF manuals with page citations; **91% correct** on a 22-question test set, refused all 4 unanswerable questions, 3.3 s median latency. **Hybrid retrieval** (BM25 + semantic, Reciprocal Rank Fusion) raised MRR from 0.748 to 0.898. Evaluation harness with hit rate, MRR and an LLM judge; 37 offline unit tests, CI and Docker.

Python, FastAPI, Streamlit, ChromaDB, BM25, Claude API, pytest, Docker, GitHub Actions

▷ **Retinal OCT Scan Classification** *Personal project*

Fine-tuned a pretrained **EfficientNet-B0** as a 4-class classifier; **94.11% accuracy** on a 968-image test set. Preprocessing and augmentation: denoising, resizing, rotation, cropping, flipping.

Python, PyTorch, EfficientNet-B0, OpenCV

EDUCATION

M.Sc. Data Science - *Technische Universität Ilmenau*, **Ilmenau, Germany** Oct 2026 - present

Courses: Bayesian Data Assimilation, Sequential Decision Making, Theoretical Foundations of Data Management

B.S. Artificial Intelligence - *FAST-NUCES*, **Karachi, Pakistan** 2021 - 2025

CGPA 3.49/4.00 (German grade equivalent: 1.7, converted)

CERTIFICATIONS

- SAP Certified Associate: SAP Analytics Cloud (Data Analyst) (2025)
- SAP Certified Associate: SAP Business Data Cloud (2025)
- SAP Certified Associate: SAP S/4HANA Cloud Public Edition, Implementation Consultant (2025)
- SAP Certified Associate: SAP Integration Developer (2025)
